School in Ontario
and Discover our Unique
System of Education

The Sathya Sai School is more than just a school

The Sathya Sai Education is a unique system that combines the Ontario Ministry of Education curriculum with a focus on character development and human values.

Our holistic approach focuses on the development of the whole child, with an emphasis on the five core human values.

The Sathya Sai Human Values System of Education

At the heart of our school is the Sathya Sai Human Values System of Education. Our program is designed to cultivate five key human values. We provide our students with a sense of calm, respect, and social responsibility. We deeply appreciate diversity and different cultures and help our students develop a strong sense of ethics and social responsibility, empowering your child for life.

Integration of Human Values and Excellence in Academics

Sathya Sai School provides students with an enriched learning environment. Our dedicated, Ontario College of Teachers qualified and creative teachers are imbued with a passion for learning. They assist each child to develop their concentration, perception, analysis, intuition and creativity, which enable them to learn and master all expectations of the Ontario Ministry of Education curriculum.

Sathya Sai School students have achieved impressive results on the provincial EQAO examinations and have been ranked #1 among elementary schools in Ontario by the Fraser Institute since 2006. The Sathya Sai School consistently has had 100% of its students score above the provincial standard (Level 3 and 4) on both the grade 3 and grade 6 EQAO provincial examinations.

Our students are empowered to lead a life of purpose, compassion, and service.

State-of-the-Art Facilities

Our state-of-the-art facilities include a dedicated computer lab, science room, art room, sports gym and a yoga and dance studio. Coding and Robotics classes

utilize the Computer Lab for the growing popularity of this field. Our STEAM program runs from our youngest grades to our oldest. We also offer a yoga and dance program to promote physical activity and healthy living.

Mindfulness and Meditation

At the Sathya Sai School, we believe in the importance of mindfulness and meditation. Our students start each day with a mindfulness practice, setting the tone for a calm and focused day of learning. Our mindfulness and meditation practices help develop resilience, self-awareness and emotional regulation.

Social Responsibility and Diversity

We understand the importance of social responsibility and diversity. Our students are encouraged to embrace diversity, promoting respect for all cultures, religions, and backgrounds. We foster global citizenship and encouraging our students to impact the world positively through programs such as our Mitten Drive, senior home visits, food bank donations and the Terry Fox Run. In the Children Helping Children (CHC) program our students do chores at home and support programs for needy children around the world.

Benefits for Your Child

Enrolling your child in the Sathya Sai School means providing them with a unique educational experience that will benefit them for years to come. Our program instills important values and life skills to help your child succeed academically and personally. As Sai Baba said, “The end of education is character”. At the Sathya Sai School, we realize that character education is as important as academic education. It is a holistic approach to education including field trips and After School Programs that serve to further the development of human values. Field trips are an integral part of our education and help students make real-life connections to what they learn in school.

Empowering Your Child for Life

The benefits of the Sathya Sai Human Values System of Education go beyond the classroom. Our unique system of education provides your child with the tools and skills to lead a life of purpose, compassion, and service. Our graduates go on to achieve success in all areas of life, positively impacting their communities and the world. We strive to empower your child to become a compassionate and responsible global citizen.

Our school motto, **“Love All, Serve All”** encapsulates our commitment to providing a nurturing and inclusive environment for all our students.

Join us at the Sathya Sai School and discover a unique system of education that empowers your child for life.
